RUSH — TIME DATED

TODAY & TOMORROW

SEPT. 29-OCT. 12, 1984

A conference that will shed new light on the mental health needs and strengths of the black family will be held Saturday and Sunday, October 13 and 14, at the University of San Francisco, Lone Mountain College Campus.

Sponsored by the Division of Psychiatry Services at SFGH, the second annual Black Task Force conference is entitled "The Black Family: Mental Health Perspectives," and will address domestic violence, chronic mental illness, sexual attitudes and behavior of urban adolescent girls and depression in black children.

"We want to spread new information on the black family and discuss how mental health services can do a better job of helping the black population," said Mindy Fullilove, program chair and UCSF assistant clinical professor of psychiatry.

A grant from the Rosenberg Foundation will pay for the printing of papers from the conference and will sponsor a postmeeting policy session where key mental health workers will discuss how to improve services for the black community. Registration fee is $80 general, $40 for students who register before October 1. For further information call 821-5219 or 821-8426.

Hospitals and Clinics and Langley Porter patients soon will have a variety of food choices when the Nutrition and Dietetics Department begins their new menu on Monday, October 1.

Featuring a variety of foods, including those which promote a "healthy heart"—low in saturated fat, sodium, cholesterol and calories, the new menu also will have a larger breakfast selection, contemporary light lunches, Sunday brunch and Sunday dinner specialties.

In addition, the cafeteria menu for staff employees, families and guests has been expanded to feature new and interesting dishes, including hot sandwiches, and a larger Sunday salad bar, according to Leon King, director of the Nutrition and Dietetics Department.

Students, faculty and staff interested in careers as foreign service officers in embassies or consulates are invited to pick up applications for the annual examination in the Office of International Students and Scholars, SSB-lower level. Deadline for submitting applications is Friday, October 19. For further information call x1773.

The Grand Chapter of California, Order of the Eastern Star, has presented the Division of Cardiology with a check for more than $22,000 to support continuing cardiovascular research at UCSF. The funds will allow researchers to pursue new directions in the study of basic mechanisms of heart disease and enable them to evaluate new forms of therapy for clinical congestive heart failure, said William Parmley, chief of the division.

For the fourth year in a row the American Parkinson's Disease Association has donated $20,000 to UCSF's Parkinson's Disease Center. Although Parkinson's is an incurable disease, afflicting more than one-half million people in the US alone, there are effective drug treatments for it. The UCSF Parkinson's Disease Center provides patients with up-to-date information on medical management of the disease, refers them to appropriate neurologists and also coordinates therapy.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* covering the time period Oct. 13-26, will be **Tuesday, Oct. 2, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

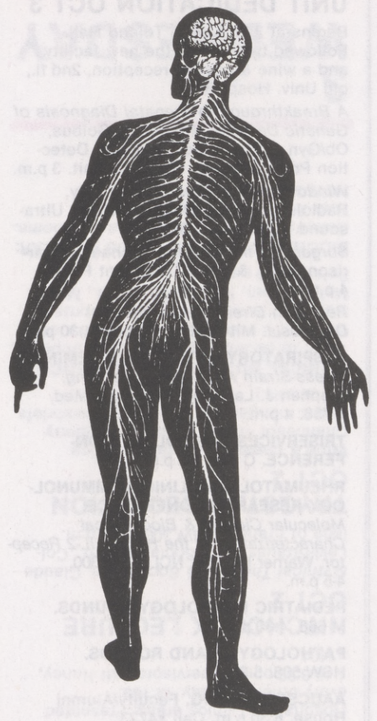
Neurobiologist Floyd E. Bloom, MD, will present the Seventh Chauncey D. Leake Lecture, "Sources of Specificity in the Nervous System," on Thursday, October 18, from 3 to 4:30 p.m. in Cole Hall. Bloom is director of the Division of Preclinical Neuroscience and Endocrinology at the Scripps Clinic and Research Foundation in La Jolla.

The preceding day, Bloom also will discuss "Neurotransmitters in the Human Brain and the Puzzle of Alzheimer's Dementia" at medicine grand rounds at 10:30 a.m. in Cole Hall.

Coauthor of the book *The Biochemical Basis of Neuropharmacology,* Bloom is a member of the National Academy of Sciences and the National Advisory Mental Health Council.

The Chauncey D. Leake Lecture is in honor of the UCSF pharmacologist, who died in 1978. It recognizes his superb leadership as a scientific statesman and his outstanding contributions to the pharmacological sciences and literature.



The campus community will have an opportunity to greet Vice Chancellor Thena Trygstad at a wine and cheese reception on Tuesday, October 2, from 4 to 6 p.m. in the Millberry Union lounges.

Trygstad, who was named Vice Chancellor—Personnel and Student Services in July, is responsible for staff personnel, affirmative action, student health service, relations with student and staff organizations and student business services (food service, bookstore, recreation, housing and the Child Care/Study Center). She also retains the responsibilities she held previously as Special Assistant to the Chancellor—coordinating the management program and directing the campus program to evaluate administrative support units.

The next two informational planning meetings will be held on Thursday, October 18, from noon to 1 p.m. in HSW 300, and at 7 p.m. in the Laguna Honda conference room, 1350 Seventh Avenue. Both meetings are open to the campus community and the general public.

Part of an ongoing series of updates by campus planning staff, the meetings will provide information to the public and campus community on the status of current and anticipated campus projects, including the Vision Research Laboratory, the UCSF Poly High proposal, campus beautification efforts and other projects. There will be an opportunity for questions from the audience. For further information call x3206.

Fifty years of health care, teaching and research contributions by the San Francisco Veterans Administration Medical Center (VAMC) will be celebrated at their 50th anniversary on Friday, October 5.

The outdoor anniversary program will begin at 12:15 p.m. in lots 12 and 13 on the Land's End site with a band concert by the US Navy Band of Treasure Island. Director Laurence V. Foye, Jr., MD, will welcome guests. Chancellor Krevans and John A. Gronvall, MD, acting chief medical director, and Everett Alvarez, Jr., deputy administrator of the Veterans Administration Central Office in Washington DC, will speak.

Tours of the VAMC will begin at 2:30 p.m. at the entrance to Building 203, and exhibits reflecting the history of the VAMC and the Center's contributions will be on display in the auditorium of Building 7.

A reception will be held at 2:30 p.m. in Cafe Miley, also in Building 7, with live music by the Sixth Army Jazz Combo.

As a teaching and medical research center, the VAMC has a distinguished faculty whose members also hold appointments at UCSF. Its research activity surpasses that of almost all university hospitals across the country and its hospitals and clinics are the major tertiary care referral centers for veterans in the region, and in some specialties, for the entire US, including Alaska and Hawaii.

For further information on the VAMC's 50th anniversary program contact Carolyn Greaf at 750-2135.

NEWS BRIEFS

Alternative medical practices, including biofeedback and acupuncture, will be discussed in the first of a series of free Community Health Lectures to be held on campus this fall.

Sponsored by the Office of Public Service Programs and the Committee for Arts and Lectures, the lectures will be held on Wednesday evenings from 7:30 to 9 p.m. in Toland Hall:

- Oct. 17: " 'Alternative' Medical Practices: Do They Have a Place in the Health Care System?" Dorothy Waddell, associate clinical professor of medicine and director of the SFGH Alternative Therapies Unit. Discussion will include reasons to go to an alternative practioner, and the roles of biofeedback, visualization, acupuncture and bodywork.
- Nov. 14: "Migraine and Tension Headaches: How to Cope?" Douglas S. Goodin, assistant professor of neurology and associate director of the Neurology Clinic, to discuss the latest information on the management of headache pain.
- Dec. 5: "Premenstrual Syndromes—What Are They and How Can They be Managed?" Carol Jessop, assistant professor of medicine and director of the student medical program, to discuss the various premenstrual syndromes that occur in sixty percent of women during their reproductive lives.

Free parking is available in the Millberry Union Garage. For further information call x3206 or x2571.

Paul Porter, chair of the newly-formed UCSF Council has invited all non-represented UCSF staff employees to participate in the Council, an organization that advises the Chancellor on matters of concern to all employees who are not represented by unions. The UCSF Council is not a union; all unrepresented employees are eligible to be members.

The next general meeting of the UCSF Council will be held on Tuesday, October 16, from 2 to 4 p.m. in Room N 517.

The Council has appointed, or is in the process of appointing, committees to gather information and to make recommendations on the following issues:

- computation of non-represented staff service credit,
- revision of Staff Personnel Policy 210: Recruitment,
- Career Day,
- staff sabbaticals,
- campus reorganization and space.

The Committee for Arts and Lectures is offering season tickets—six concerts for the price of five—to its third season of "Twilight Concerts." Season tickets are $15 for seniors and UCSF students, $20 general, and must be purchased by Wednesday, October 10. Call x2571.

All concerts will be presented in the Millberry Union lounges from 5:45 to 7 p.m. and will be preceded by a complimentary wine and cheese reception at 5 p.m.

- Wed., Jan. 23: Piano concert by AnnaMarie and John McCarthy, one of the few four-hand duets performing in the US today.
- Wed., Feb. 20: Stanford String Quartet to perform all-time favorite chamber works.
- Mon., Apr. 22: Cello/piano duo Emil Miland and Robin Sutherland.
- Fri., May 17: Chanticleer, an all-male vocal ensemble, to present songs ranging from the 17th century to present day pop.

Daniel Jones, professor and chair of ophthalmology at Baylor College in Houston, will deliver the fifth annual Samuel J. Kimura Lecture on Thursday, October 4, at 9:15 a.m. in Room S 214. He will discuss the most up-to-date treatment for ulcers of the cornea in his topic, "Management of Suppurative Keratitis: State of the Art."

Jones holds the Sid W. Richardson Professorship of Ocular Microbiology and is director of the Ocular Microbiology Laboratory at the Cullen Eye Institute at Baylor.

The Kimura Lecture honors the 1940 UCSF graduate who had a long and distinguished career as an outstanding clinician and educator. A world authority of uveitis and other ocular inflammatory diseases, Kimura was associated with the Department of Ophthalmology since 1946. He was appointed vice chair in 1959 and became professor emeritus in 1979. He died that same year. He was president and one of the founders of That Man May See, Inc., the fund-raising foundation to support eye disease research.

The life work of black civil rights organizer Ella Baker is the subject of one of the films featured during the month of October in the free film series "Images of Women of Color."

Sponsored by the Women's Resource Center and the Affirmative Action Office, the films will be shown on Tuesdays from noon to 1 p.m. in HSW 302:

- Oct. 2: "There But for Fortune." Joan Baez' Latin American concert tour—a journey impeded by government interference.
- Oct. 9: "What Could You Do With a Nickel?" Black and Hispanic women in the South Bronx form the first domestic workers union in the US.
- Oct. 16: "Mitsuye and Nellie." Two poets express their experiences as Asian American women.
- Oct. 23: "Fundi: The Story of Ella Baker." The life work of this Black civil rights organizer.
- Oct. 30: "Story of O." The dynamics of being different are portrayed through animation. A panel discussion on "The Experiences of UCSF Women of Color" will follow the film. Participants will include Elba Clemente, Labor Relations; Silvia Molina, Office of Senior Vice Chancellor Academic Affairs; Viki Radden, Women's Resource Center; Nellie Wong, Affirmative Action Office.

Also during the month of October, the Women's Resource Center is sponsoring a free seminar on employment, a reception for women and an open house.

- A free seminar entitled "How to Become Happily Employed," will be held on Monday, October 1, from noon to 1 p.m. in HSW 301. Presented by Barbara Bloch Vinitsky and Janice Yukon Benjamin, authors of the book *How to Become Happily Employed,* it will offer hands-on practical information, from getting hired to salary negotiation.
- A free reception for UCSF women will be held on Wednesday, October 10, from 4 to 6 p.m. at the Faculty/Alumni House. Tables will be set up with information on various women's services on campus. The reception is cosponsored by the Chancellor's Advisory Committee on the Status of Women.
- The Women's Resource Center, 1308-B Third Avenue, will have an open house on Thursday, October 11, from 11 a.m. to 1 p.m. The entire campus is invited to attend.

For further information on any of the above events call x5836.

Funds now are available for instructional improvement projects and affirmative action faculty development awards.

- Faculty and students are invited to submit applications for instructional improvement projects for the 1984-85 academic year.
- Junior faculty who hold ladder appointments, but are encountering unusual obstacles in advancing to tenure, are invited to submit applications for the affirmative action faculty development awards.

Application forms for both awards are available in the Academic Services Office, SSB-lower level. Deadline for submission is Wednesday, October 31. For further information call x2218.

The General Clinical Research Center at SFGH will celebrate its 20th Anniversary on Friday, October 19, with a scientific program on "Factors Influencing Cardiovascular Injury."

The ceremony will start at 1 p.m. in Carr Auditorium and will outline the accomplishments of the Center. A presentation also will be made by a member of the Division of Research Resources, NIH. The scientific part of the program will begin at 1:30 p.m. with:

- "Clinical Research and Growth in Knowledge of High Blood Pressure and its Management." John H. Laragh, MD, professor of medicine and director of the Hypertension Clinic, Cornell.
- "The Role of Insulin Resistance in the Pathogenesis of Type II Diabetes Mellitus." Jerry Olefsky, MD, professor of medicine, UCSD.
- "Curable Primary Aldosteronism Due to Adrenocortical Hyperplasia." Edward G. Biglieri, MD, professor of medicine and director of the General Clinical Research Center.

Participants and guests will be invited to a reception and open house starting at 4:30 p.m. at the Center, located on the third floor of Building 100.

Tickets now are available for the Mary Martin Benefit for the SFGH Trauma Foundation scheduled for Monday, October 22, at 8 p.m. at Davies Symphony Hall.

In 1982, the actress was a patient at SFGH for 10 days after the taxi she was riding in was hit by a car. Joining Martin on stage for song and dance will be a host of friends including Florence Henderson, Martin's son Larry Hagman, Van Johnson, Robert Preston and John Raitt.

Tickets, ranging from $20 to $150, are available at the box office at Davies Hall, BASS, Ticketron and other major outlets. For further information call 821-5310.

An intensive day-long workshop to help clinicians care for Southeast Asian refugees is scheduled for Friday, October 12, at Valley Medical Center in Fresno.

Presentations will be made on the historical and cultural background of Southeast Asia, Eastern perspectives on health and illness, identifying cross-cultural skills, Southeast Asian healing methods and application of cross-cultural skills.

The program was developed by the UCSF Division of Family and Community Medicine in conjunction with SFGH and Valley Medical Center. Financial support came from the Association of Western Hospitals. For registration information call x5808.

The School of Nursing Computer Resources Center is sponsoring an IBM computer display on the mezzanine level of the School of Nursing building on Wednesday, October 10, from 12:30 to 4:30 p.m., and on Thursday and Friday, October 11 and 12, from 9:30 a.m. to 4:30 p.m.

IBM products to be demonstrated include new engineering/scientific work stations, graphic programs, new office systems and personal computers and software.

IN MEMORIAM

W. Porter Forcade, clinical instructor, orthopaedic surgery from 1963 to 1971. A pioneer in surgical techniques, he was one of the first surgeons to replace a man's thumb with his toe after the thumb had been severely injured. Contributions may be made to the Ralph K. Davies Medical Center or to the American Cancer Society.

The first high-speed computed cinetomography scanner, which takes pictures so fast it can image the beating heart, has been installed on the third floor of Long Hospital.

The Cine CT scanner is expected to be a significant new tool in the fight against heart disease, according to UCSF radiology and cardiology experts. Diseases of the heart and blood vessels are the most serious health care problems in the US, causing the death of one million Americans annually.

The new millisecond Cine CT scanner was developed by UCSF researchers led by physicist Douglas P. Boyd, PhD.

Conventional CT scanners have not been able to take scans fast enough to catch the heart muscle as it pulsates, making testing inadequate for early detection of disease, according to the UCSF researchers.

MOVES

The office of Hospitals & Clinics Director William B. Kerr temporarily has moved for three months from M 181 to Room 110 Laundry Storehouse. Telephone extension 1405 remains the same. All other hospital administration offices remain in M 181.
